Sylantro Systems Expands Presence in Asia Pacific, Appoints Jonathan Reid Managing Director

Sylantro Shanghai Office to Become Asia Pacific Regional Headquarters; Development and Testing Center Established

Campbell, Calif., Sept. 7, 2006 - Sylantro Systems Corp., the leading supplier of feature servers for hosted VoIP services in carrier networks, today announced its continued global growth with the establishment of a regional headquarters in Shanghai and the promotion of Jonathan Reid to managing director, Asia Pacific. In his new role, Reid will be responsible for all field activities in the region, inclusive of sales, business development, and operations. Reid will relocate to Shanghai from the United States. In addition to the existing sales and support activities located in Shanghai, Sylantro has also established a development and testing center. This group, which will be headed by experienced Sylantro engineering personnel, will expand Sylantro's application development expertise and complement the company's development centers in Campbell, Calif. and Bangalore, India. Hiring for the Shanghai engineering team is currently underway.

Reid has more than 15 years experience in the telecommunications and software industries. He has been with Sylantro for more than two years, most recently responsible for the company's strategic alliances, OEM and reseller partners. Prior to joining Sylantro, Reid led business development at Syndeo Corporation, where he was responsible for strategic partnerships and alliances. Reid has also worked for a number of high tech start-up companies and spent eight

years as a strategy consultant with Andersen Consulting (now Accenture). He received his MBA from INSEAD, Europe's top business school.

"With five tier-1 Asia Pacific customers already announced and many more in trials, Sylantro clearly dominates the Application Feature Server market in the region," said Jonathan Reid, managing director, Sylantro Systems. "We are now taking our strategic commitment to the next level, by creating a new headquarters and assigning key resources and capabilities in the region, as well as greatly increasing the employee base in the coming 12 months."

"We have been incredibly successful throughout Asia, with announced customers China Netcom, China Unicom, StarHub in Singapore and Softbank in Japan," said Pete Bonee, president and CEO, Sylantro Systems. "The Asia Pacific region offers immense and relatively untapped potential for VoIP applications. With engineering resources on the ground and Jonathan leading a focused field team working closely with our strategic partners, we are confident that we will see enormous growth and business success in the region."

About Sylantro Systems Corp.
Sylantro Systems provides the premier software platform for business, consumer, and mobile hosted VoIP solutions. Sylantro allows network operators to rapidly deliver high value, high margin managed telephony services without the cost and complexity of today's in house PBX and key systems, giving users new flexibility in their communication services. Sylantro customers include AT&T, Bandwidth.com, China Netcom, China Unicom, Covad, StarHub, SunRocket, and Swisscom. Sylantro is headquartered in Campbell, Calif.
