

## **Webraska Joins Sony Ericsson's Business Partner Program**

Paris, France - May 22, 2006 Webraska, a leading provider of mobile GPS navigation solutions and high-end geospatial software platforms for wireless carriers and major service providers worldwide, is pleased to announce that it has been invited to join Sony Ericsson's Business Partner Programme as a Power Partner.

This illustrates both partners' commitment to jointly foster the market development of mobile GPS navigation solutions by promoting Webraska Navigation on Sony Ericsson branded devices, thus offering carriers and mobile service operators an attractive bundle. Under the terms of the agreement, partners recognise the great potential of the wireless navigation market and their mutual interest to gather forces; action plan includes Webraska Navigation pre-installation on Sony Ericsson's devices as well as joint marketing and sales activities.

"Being invited to join Sony Ericsson's Business Partner programme proves that device manufacturers are willing to get involved in the development of mobile applications beyond traditional voice and messaging services. They recognise mobile GPS navigation as one of the most attractive application. On Webraska's standpoint, joining the programme means reinforcing our position as a business partner for carriers and large service operators thanks to a combined action with devices manufacturers" declared Jean-Michel Durocher, co-founder and Executive Vice President of Webraska.
